# INTEL INDEXER

July 21, 2018

Intel Indexer, subsidiary of Janta Express LLC
3217 King Street
Berkeley, CA, 94073
(202) - 440 - 7919

To Whom It May Concern:

Saurabh Kumar worked for Intel Indexer as a machine learning scientist intern from February 1, 2018, to June 08, 2018,. He wrote python code for machine learning models and created class abstraction of important GDELT - the largest geopolitical data as a data scientist. His responsibilities included requirements gathering, analysis and design of complex data related to building forecasting dashboards for protests. During the course of his employment, Saurabh proved himself to be a dependable employee and a hard worker with solid problem solving and technical skills.

Saurabh is also quite diligent and has the ability to complete the work assigned to him on time. Nevertheless, Saurabh must improve his communication skills and order to meet deadlines.

Saurabh takes his work very seriously and regularly and stays abreast of the newest developments in programming. He executed dimensionality reduction algorithms including time series forecasting problem involving Long-Short Term Memory (LSTM) Recurrent Neural Networks (RNNs) and detailed understanding of structural social science aspects.

Saurabh would be an asset to have on any team with his new found expertise in data science and geopolitics. He pitches innovative ideas but needs to listens to what others have to say. Saurabh is a highly creative mind and with appropriate guidance and diligent management, may become valuable to any company.

Sincerely yours,

Saurabh Mishra
CEO, Intel Indexer
